

## TAN DG

### SPECIFICATION SHEET

#### CONSISTENCY

Crushed granite fines screened to  $\frac{3}{8}$ " minus, with a mix of fine particles and small angular fragments. Offers excellent compaction and a stable surface when installed correctly.

#### FUNCTIONALITY

Ideal for pathways, patios, driveways, desert-scapes, and under artificial turf. Provides a firm, natural surface with moderate water permeability. Can be used natural or stabilized (with a binder) depending on traffic and erosion needs.

#### CLEANLINESS

Washed and magnet-screened to remove metal debris, organic matter, and excess dust. Free from herbicides, pesticides, or chemical additives.

#### VISUAL APPEAL

Warm tan to light brown tones, with a natural matte finish. Blends well with Southwestern, desert, and drought-tolerant landscapes. Can be used as a decorative top layer or compacted base.
