

V-NINETY

SPECIFICATION SHEET

CONSISTENCY

V-Ninety features a tall 1.75" M-shaped blade designed for a natural, upright appearance with strong resilience. The 90-ounce construction provides a dense, uniform surface that maintains consistent color and texture across rolls.

CLEANLINESS

This turf arrives clean, low-shedding, and ready for installation. Its backing system allows efficient drainage and helps keep the surface free of debris buildup.

FUNCTIONALITY

Ideal for residential lawns and commercial landscapes, V-Ninety offers excellent durability and long-term performance. The M-shaped blades reduce matting and improve rebound, while the tall pile height delivers a plush, natural feel.

VISUAL APPEAL

The dense 90-oz face weight and 1.75" pile height create a lush, realistic aesthetic that mimics healthy natural grass. Its upright M-blade structure enhances light reflection and texture, giving the turf a vibrant, well-maintained appearance year-round.
